"Every bag of V-C Fertilizer made 100 pounds of pork!"

"YOU remember in the spring, Bill, I applied V-C Fertilizer to that corn land. You were a "Doubting Thomas." You didn't think 'twould pay. Where no fertilizer was used, my yield was about the same as yours, but where the crop was fertilized, the yield per acre was 13 bushels more. It cost me about $3 to get those extra 13 bushels.

"Now I've turned in my hogs. Those 13 bushels of corn will make more than 100 pounds of hog meat. It's just plain business sense to convert $3 worth of fertilizer into $20 worth of pork. 50 acres of my corn land will make $1,000 more profit on hogs than was possible without V-C."

There are lots of men like Bill whose farms are under-productive because they do not replace the plant foods each crop extracts.

Others like Mr. McIver Williamson, of South Carolina, use from 1400 to 2000 pounds to the acre and not only make more corn — but make it at a much lower cost per bushel—and enrich the land as well. They convert chemicals into cash.

V-C Fertilizers contain every element needed to make both stalk and grain.

Important to Order Early.

Freight cars are scarce. Give the dealer your order so that he can have cars loaded to maximum capacity.

Virginia-Carolina Chemical Co.

Pleasant, Tenn., Baltimore, Md., Cincinnati, Ohio, Fort Wayne, Ind., New York City.

V-C Fertilizers

Fertilizers

Feed the Fields that Feed the World!

THE world is asking for bread and meat. Bigger crops cannot be raised by increasing your acreage, the shortage of labor makes that impossible. To meet the demand for bread more grain must be raised on the acres you now cultivate.

You must fertilize. You cannot ship away more fertility in the form of bigger crops unless you bring more fertility in.

To raise more livestock, we must have more feed. The only way to grow more feed, is to add to your soils supplies of plant food. Upon the use of fertilizers depends both bread and meat.

In the vast storehouses in the earth, Nature provided food for the soil, Nitrates and Phosphates, just as she provided food for man and beast. These plant foods we gather from the four corners of the globe, and make into V-C Fertilizers that are balanced crop rations—that benefit the crop immediately—nourish it from seed time until harvest. The crop is not overfed on one element and starved for the lack of another.

Freight is Congested—Order Early!

We have more than 50 factories in the North, South, East and Middle-West. We are able to get fertilizers to you with a minimum amount of hauling, but the car shortage is serious. Fertilizers should be ordered early, so that the dealer can assemble his orders and have every car loaded to maximum capacity If you do not order **now** you may have to do without them!

When the fertilizers arrive, haul them home and store in your barn until you are ready to use them.

Write us for name of dealers near you who sell V-C Fertilizers.
